NEED ADDITIONAL HELP?

We can offer assistance when your office staff needs help

Due to the unique nature of your practice and based on the compatibility of your data, the hours required will vary. Additional hours of assistance will be provided at \$65/hour, including for assistance with practice data clean-up or fixing billing and record errors on the practice side during or after the initial set-up. If at any time you need assistance with billing errors, template creation, or if you bring on new staff that needs training or help, we are happy to assist at our hourly rate on an as-needed basis.
